PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 1 - ORGANISATION AND NATURE OF OPERATIONS

Pınar Entegre Et ve Un Sanayii A.Ş. (the "Company") was established in 1985 and is engaged in production of meat and by-products of cattle, sheep, poultry and fish, frozen dough and packaged food. The Company sells its products under "Pınar" brand, which is one of the leading brands in food and beverages business in Turkey.

The Company is a member of Yaşar Group. Majority of the Company's sales in the domestic market amounting approximately 77% (2014: 78%) are made to its investment-in-associate, Yaşar Birleşik Pazarlama Dağıtım Turizm ve Ticaret A.Ş. ("YBP"), and majority of the exports are made to Yaşar Dış Ticaret A.Ş. ("YDT"), which are both Yaşar Group companies (Note 7).

The Company is subject to the regulations of the Capital Market Board ("CMB") and 33% (2014: 33%) of its shares are quoted on the Borsa İstanbul ("BIST"). The ultimate parent of the Company is Yaşar Holding A.Ş. ("Yaşar Holding") with 54% shares of the Company (2014: 54%) (Note 31).

The address of the registered head office of the Company is as follows:

Ankara Asfaltı 25. Km,
Kemalpaşa - İzmir

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation of Financial Statements

The accompanying financial statements are prepared in accordance with Communiqué Serial II, No:14.1, "Principles of Financial Reporting in Capital Markets" ("the Communiqué") published in the Official Gazette numbered 28676 on 13 June 2013. According to Article 5 of the Communiqué, financial statements are prepared in accordance with the Turkish Accounting Standards issued by Public Oversight Accounting and Auditing Standards Authority ("POAASA"). TAS contains Turkish Accounting Standards, Turkish Financial Reporting Standards ("TFRS") and its addendum and interpretations ("IFRIC").

The financial statements of the Company are prepared as per the CMB announcement of 7 June 2013 relating to financial statements presentations. Comparative figures are reclassified, where necessary, to conform to changes in the presentation of the current year's financial statements.

In accordance with the CMB resolution issued on 17 March 2005, listed companies operating in Turkey are not subject to inflation accounting effective from 1 January 2005. Therefore, the financial statements of the Company have been prepared accordingly.

The Company maintains its books of accounts and prepares its statutory financial statements in accordance with the Turkish Commercial Code ("TCC"), tax legislation, the Uniform Chart of Accounts issued by the Ministry of Finance and principles issued by CMB. These financial statements have been prepared under historical cost conventions except for financial assets, financial liabilities, land, buildings and land improvements, machinery and equipments which are carried at fair value. The financial statements are based on the statutory records, which are maintained under historical cost conventions, with the required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with TAS. The Company's functional and reporting currency is Turkish Lira ("TL").

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

2.2. Amendments in International Financial Reporting Standards

a) New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2015 and are adopted by the Company:

- Amendment to TAS 19 regarding defined benefit plans, effective from annual periods beginning on or after 1 July 2014. These narrow scope amendments apply to contributions from employees or third parties to defined benefit plans. The objective of the amendments is to simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary.
- Annual improvements 2012 and 2013; effective from annual periods beginning on or after 1 July 2014. These amendments include changes from the 2010 - 12 and 2011-13 cycle of the annual improvements project, that affect a couple standards.

b) New standards, amendments and interpretations issued and effective as of 31 December 2015 have not been presented since they are not relevant to the operations of the Company or have insignificant impact on the financial statements.

c) New TFRS standards, amendments and IFRICs effective after 1 January 2016:

- Amendment to TAS 16, 'Property, plant and equipment' and TAS 38, 'Intangible assets', on depreciation and amortisation, effective from annual periods beginning on or after 1 January 2016. In this amendment the it has clarified that the use of revenue based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. It is also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset.
- Amendment to TFRS 10 'Consolidated financial statements' and TAS 28, 'Investments in associates and joint ventures', effective from annual periods beginning on or after 1 January 2016. These amendments clarify the application of the consolidation exception for investment entities and their subsidiaries. The main result of the change, a corporation has been occurred in the definition of the entity (whether is kept that in subsidiaries).All of gain or loss have been occurred at the end of the process which is entered in accounts ; if there is a situation which is selling or purchasing of an entity ; a loss or gain that have been occurred , not all of them has been entered in accounts.
- Annual improvements 2014, effective from annual periods beginning on or after 1 January 2016. These set of amendments impacts 5 standards:
 - TFRS 5, 'Non-current assets held for sale and discontinued operations' regarding methods of disposal.
 - TFRS 7, 'Financial instruments: Disclosures', (with consequential amendments to TFRS 1) regarding servicing contracts.
 - TAS 19, 'Employee benefits' regarding discount rates.
 - TAS 34, 'Interim financial reporting' regarding disclosure of information
- Amendment to TAS 1, 'Presentation of financial statements' on the disclosure initiative, effective from annual periods beginning on or after 1 January 2016, these amendments improve presentation and disclosure in financial reports.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

- TFRS 15 "Revenue from Contracts with Customers", effective from annual periods beginning on or after 1 January 2017. The new standart, appears as a result of alignment project with Generally Accepted Accounting Principles in United States of America, aims the financial reporting of revenue and the world wide comparability of total revenues in financial statements. The new standart bases on the principal that revenue is accounted for when control of the good or service is transfered to customer, therefore control concept changes the current risk and reward concept.
- TFRS 9 'Financial instruments', effective from annual periods beginning on or after 1 January 2018. This standard replaces the guidance in TAS 39. It includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the current incurred loss impairment model.

The company will determine the effects of these amendments above on the financial statements and will apply after effective date. The amendments do not have significant impact on the Company's financial statements.

New standards, amendments and interpretations issued and effective as of 31 December 2015 have not been presented since they are not relevant to the operations of the company or have insignificant impact on the financial statements.

2.3 Accounting policies, errors and change in accounting estimates

Material changes in accounting policies and accounting errors are applied on a retrospective basis as if a prior period error had never occurred or the policy had always been applied. The effect of changes in accounting estimate shall be recognised prospectively by including it in the statement of comprehensive income within the period of the change, if the change affects that period only; or period of the change and future periods, if the change affects both.

2.4 Basis of Consolidation

The Company does not have any subsidiary to be consolidated in the financial statements. The investments-in-associates are accounted for using the equity method and are initially recognised at cost. These are undertakings over which the Company has between 20% and 50% of the voting rights, or over which the Company has significant influence, but which not control. Unrealised gains on transactions between the Company has significant influence, but which not control. Unrealised gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates; unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. The Company's share of its associates' post-acquisition profits or losses is recognised in the statement of comprehensive income, and its share of post-acquisition movements in reserves, such as fair value changes in available-for-sale financial assets, revaluation of property, plant and equipments, depreciation transfer and derecognition of such reserves, is recognised in statement of changes in equity and statement in comprehensive income. Dividends to be received or receivable from associates are accounted for as a reduction of the carrying amount of the investment.

Changes in ownership interests in subsidiaries without change of control or significant influence

The purchase of share in subsidiaries without change of control or significant influence accounted with the difference between the fair value of identifiable net assets and to be paid the fee for participation is recognized as goodwill in the carrying amount of investment in associates.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

The table below sets out the associates and the proportion of ownership interest as of 31 December 2015 and 2014 (Note 4):

	Shareholding (%)	
	2015	2014
<u>Investments-in-associates</u>		
YBP	42,78	42,78
Çamlı Yem Besicilik Sanayi ve Ticaret A.Ş. ("Çamlı Yem")	23,38	23,38
Pınar Foods GmbH ("Pınar Foods")	44,94	44,94
Desa Enerji Elektrik Üretim A.Ş. ("Desa Enerji")	26,41	26,41

Foreign currency translation

i) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

ii) Translation of financial statements of foreign associate

Financial statements of Pınar Foods operating in Germany are prepared according to the legislation of the country in which it operates, and adjusted to the financial reporting standards issued by the CMB. The assets and liabilities of foreign associate are translated into TL from the foreign exchange rates at the balance sheet date, and the statement of comprehensive income items of foreign associate are translated into TL at the average foreign exchange rates in the period. As of 31 December 2015, the equivalent of EUR1 is TL3,1776 (2014: TL2,8207 and for the year then ended, the average equivalent of EUR1 is TL3,0183 (2014: TL2,9049). Exchange differences arising from re-translation of the opening net assets of investment-in-associate and the differences between the average and year-end rates are included in the "currency translation reserve" under the equity as a separate component.

2.5 Offsetting

All items with significant amounts and nature, even with similar characteristics, are presented separately in the financial statements. Insignificant amounts are grouped and presented by means of items similar substance and function. When the nature of transactions and events necessitate offsetting, presentation of these transactions and events over their net amounts or recognition of the assets after deducting the related impairment are not considered as a violation of the rule of non-offsetting. As a result of the transactions in the normal course of business, revenue other than revenue described in the section "Revenue Recognition" are presented as net if the nature of the transaction or the event qualify for offsetting.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

2.6 Comparative Information and Correction of Prior Year Financial Statements

The Company prepared its financial statements on a comparative basis with the preceding financial period, which enables determination of trends in financial position and performance. The Company prepared its balance sheet at 31 December 2015 on a comparative basis with balance sheet at 31 December 2014; and statements of comprehensive income, cash flows and changes in equity for the period of 1 January - 31 December 2015 on a comparative basis with financial statements for the period of 1 January - 31 December 2014.

2.7 Summary of Significant Accounting Policies

The significant accounting policies applied in the preparation of the financial statements are summarised below:

2.7.1 Revenue

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Company's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after elimination sales within the Company. At each balance sheet date any expenditure incurred but not yet invoiced is estimated and accrued.

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and when specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement (Note32).

Revenue is recognized as follows:

Sales of goods:

Sales of goods are recognized when the Company delivers or sells products to the customer, the customer accepts the products and collectability of the related receivables is reasonably assured. It is the Company's policy to sell its products to the customers with a right of return. Accumulated experience is used to estimate and provide for such returns at the time of sale.

Sales of services:

Sales of services are recognized in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

Interest Income:

Interest income is recognised on a time-proportion basis using the effective interest method. The amount of the provision for receivables is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate and recognized as interest income.

Other revenues earned by the Company are recognized on the following bases:

Rental income- recognized evenly on an accrual basis.

Dividend income - when the Company's right to receive payment is established.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

2.7.2 Inventories

Raw materials of the Company mainly consist of meat and white meat as well as spices and animal fats, which are used in production of meat. Work in progress stocks mainly consists of processed turkey, cattle and sheep meat, finished goods consist of delicatessen, frozen and fresh meat product, other stocks mainly consists of spare parts

Inventories are valued at the lower of cost or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses. Cost elements included in inventories comprise all costs of purchase of material and other costs incurred in bringing the inventories to their present location and condition. The cost of inventories is determined on the monthly weighted average basis (Note 11).

2.7.3 Property, plant and equipment

Property, plant and equipment, except for land and land improvements, buildings, machinery and equipment acquired 1 January 2005 are carried at cost less accumulated depreciation, all tangible assets are stated at cost in the purchasing power of 31 December 2004. After 1 January 2005 to obtain the pen obtained which is reflected in the financial statements at cost less accumulated depreciation up to the balance sheet date. Land and land improvements and buildings are stated at fair value, based on valuations by external independent valuers namely TSKB Gayrimenkul Değerleme A.Ş. while machinery and equipment are stated at fair value and less depreciations for the subsequent periods, based on valuations by external independent valuers namely TSKB Gayrimenkul Değerleme A.Ş. (Note 15). Valuations are performed with sufficient regularity to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the relevant asset, and the net amount is restated to the revalued amount of the asset.

Increases in the carrying amount arising on the revaluation of land, land improvements, buildings and machinery and equipment are credited to the revaluation reserve in equity, net of applicable deferred income tax. For certain assets, the increase was recognized in the statement of comprehensive income to the extent that it reversed the impairment of the same asset previously recognized in the statement of comprehensive income. Decreases that offset previous increases of the same asset are charged against that reserve; all other decreases are charged to the statement of comprehensive income. Each year the difference between depreciation based on the revalued carrying amount of the asset (the depreciation charged to the statement of comprehensive income) and depreciation based on the revaluation reserve to the accumulated losses is transferred from the asset's original cost.

Buildings, machinery and equipment are capitalised and depreciated when they are in the location and condition necessary for it to be capable of operating in the manner intended by the management. At each balance sheet date, residual values and estimated useful lives of property, plant and equipment are reviewed and adjusted if appropriate, prospectively.

The advances given for the property, plant and equipment purchases are classified under the other non-current assets until the related asset is capitalised. The estimated useful lives are reviewed and any essential corrections are made on prospective basis in the each of reporting period.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

Depreciation is provided on the cost or revalued amounts of property, plant and equipment on a straight-line basis less any impairment (Note 15). Land is not depreciated as it is deemed to have an indefinite life. The estimated useful lives of property, plant and equipments are as follows:

	<u>Years</u>
Buildings and land improvements	5-30
Machinery and equipments	5-20
Furniture and fixtures	5-10
Motor vehicles	5

The assets' useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Subsequent costs are included in the asset's carrying value recognised as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Property, plant and equipment are reviewed for impairment losses, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. For the purpose of assessing impairment, property plant and equipment assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of fair value less cost to sell or value in use. If the property, plant and equipments that are impaired, are revalued, the impairment is charged to the revaluation reserves to the extent that the amount offsetting previous increases of the same asset charged in the revaluation reserves and all other decreases are recognised in the statement of comprehensive income.

Repairs and maintenance are charged to the statements of comprehensive income during the financial period in which they are incurred. The Company derecognizes the carrying amounts of the replaced parts related to renovations regardless of whether the replaced parts were depreciated separately. Major overhauls are depreciated over shorter of their useful lives or the remaining useful life of the related assets. Gains or losses on disposals of property, plant and equipment are determined by reference to their carrying amounts and are included in the related income and expense accounts, as appropriate (Note 36). On the disposal of revalued assets, amounts in the revaluation reserve relating to that asset are transferred to the retained earnings.

2.7.4 Intangible assets

Intangible assets have finite useful lives and mainly comprise acquired rights. These assets which is acquired before 1 January 2005, TL is the intake adjusted acquisition cost expressed in the power on 31 December 2004, for items that are obtained after 1 January 2005 over the cost of acquisition is less accumulated amortization and present value the value of the net after deduction of impairment is recognized in the financial statements. They are recorded at acquisition cost and amortized on a straight-line basis over their estimated useful lives for a period of five years from the date of acquisition (Note 18). Costs associated with maintaining computer software programs are recognized as an expense when incurred. Gain or losses on disposals or on impairments of intangible assets with respect to their amounts are included in the related income and expense accounts. Residual values of intangible assets are deemed as negligible. Intangible assets are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. For the purpose of assessing impairment, intangible assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of fair value less cost to sell or value in use.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

2.7.5 Impairment of assets

Impairment of financial assets:

- Assets carried at amortized cost

The Company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The criteria that the Company uses to determine that there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or obligor,
- A breach of contract, such as a default or delinquency in interest or principal payments,
- The Company, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider,
- It becomes probable that the borrower will enter bankruptcy or other financial reorganisation,
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - (i) Adverse changes in the payment status of borrowers in the portfolio; and
 - (ii) National or local economic conditions that correlate with defaults on the assets in the portfolio.

The Company first assesses whether objective evidence of impairment exists.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognized in the statement of comprehensive income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the reversal of the previously recognized impairment loss is recognized in the statement of comprehensive income.

- Assets classified as available for sale

The Company assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss - is removed from equity and recognized in the statement of comprehensive income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, impairment losses recognized in the comprehensive income statement, on equity instruments are not reversed through the statement of comprehensive income.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

Impairment of non-financial assets:

At each reporting date, the company assesses whether there is an impairment indication for the assets, except for the deferred income tax asset. When an indication of impairment exists, the company estimates the recoverable amounts of such assets. The recoverable amounts of intangible assets not yet available for use to be measured annually. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Assets are allocated to cash generating units for the purpose of impairment testing, which is undertaken on the lowest level. An impairment loss is recognized for the amount by which the carrying amount of the asset or any cash-generating unit of that asset exceeds its recoverable amount, which is the higher of an asset's net selling price or value in use. Impairment losses are accounted for in the statement of comprehensive income. Impairment losses can be reversed to the extent that increased carrying amount of an asset shall not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years provided that increases in the recoverable amount of the asset can be associated with events that occur subsequent to the period in which the impairment loss was recognized.

In the case of impairment according to TAS 39 'Financial instruments: Recognition and measurement', test with comparing recoverable and carrying amount of impaired assets if there is and impairment according to TAS 36. Goodwill, accounted in investment in associates, does not recognized separately on the financial statements, so is not necessary to perform "Impairment of Assets" according to TAS 36. In accordance with TAS 39 "Financial Instruments: Recognition and Measurement", if there is an indication of impairment in investment in associates, the carrying amount of the investments is tested in accordance with TAS 36, by comparing its recoverable amount (higher of value-in-use and fair value less cost to sell) with its carrying amount and any additional impairment loss is recognised, if any.

2.7.6 Borrowing and borrowing cost

Borrowings are recognised initially at the proceeds received, net of any transaction costs incurred. In subsequent periods, borrowings are restated at amortised cost using the effective yield method. Any difference between proceeds (net of transaction costs) and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings. Borrowing costs are expensed as incurred (Note 38). If the borrowings mature within 12 months, then they are classified in current liabilities, otherwise they are classified in non-current liabilities (Notes 25).

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

A qualifying asset is an asset that takes a substantial period of time to get ready for its intended use or sale. General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

2.7.7 Financial assets

At each reporting date, the Company assesses whether there is an impairment indication for the assets, except for the deferred income tax asset. When an indication of impairment exists, the Company estimates the recoverable amounts of such assets. The recoverable amounts of intangible assets not yet available for use to be measured annually. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. The Company does not have any financial asset – held to maturity or fair value changes accounted through statements of income or expenses.

i. Classification

- Loans and receivables

Loans and receivables constitute non-derivative financial instruments, which are not quoted in active markets and have fixed or scheduled payments. If the maturity of these instruments are less than 12 months, these loans and receivables are classified in current assets and if more than 12 months, classified in non-current assets. The loans and receivables are included in Trade receivables and Other receivables in the balance sheet.

When the loan is originated by the company by providing money directly to a bank, the loan is secured by Turkish government bonds and treasury bills, acquired under reverse repurchase agreements with banks with a predetermined sale price at fixed future dates and are stated at amortized cost. The accrued interest represents the apportionment to the current period of the difference between future sale prices and the amount provided by the company. Such originated loans where original maturity at the time the money is directly transferred to the bank is less than three months, are considered and classified as cash equivalents for the purposes of cash flow statements (Note 6).

- Available-for-sale investments

Investments intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available-for-sale. These are included in non-current assets, unless management has expressed the intention of holding the investment for less than 12 months from the balance sheet date or unless they will need to be sold to raise operating capital, in which case they are included in current assets.

ii. Recognition and measurement

Regular purchases and sales of financial assets are recognized on the trade-date -the date on which the Company commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value.

Loans and receivables are subsequently carried at amortized cost using the effective interest method.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

Dividend income from financial assets at fair value through profit or loss and available-for-sale equity instruments is recognized in the statement of income as part of other income when the Company's right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available for sale are recognized in other comprehensive income. When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in equity are included in the income statement as 'gains and losses from investment securities'. Interest on available-for-sale securities calculated using the effective interest method is recognized in the income statement as part of income from investment activities.

2.7.8 Earnings per share

Earnings per share disclosed in the statement of comprehensive income are determined by dividing net income for the year by the weighted average number of shares that have been outstanding during the year concerned (Note 42).

Companies can increase their share capital by making a pro-rata distribution of shares ("Bonus Shares") to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources, by giving them retroactive effect for the year in which they were issued and for each earlier year.

In case of dividend distribution, earnings per share is calculated by dividing net income by the number of shares, rather than dividing by weighted average number of shares outstanding.

2.7.9 Subsequent events

Subsequent events, announcements related to net profit or even declared after other selective financial information has been publicly announced, include all events that take place between the balance sheet date and the date when balance sheet was authorised for issue

In the case that events require a correction to be made occur subsequent to the balance sheet date, the Company makes the necessary corrections to the financial statements. Moreover, the events that occur subsequent to the balance sheet date and that do not require a correction to be made are disclosed in accompanying notes, where the decisions of the users of financial statements are affected.

2.7.10 Provisions, contingent liabilities and contingent assets

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company are treated as contingent assets or liabilities. The Company does not recognise contingent assets and liabilities (Note 26). The Company does not recognize contingent assets and liabilities. A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed, where an inflow of economic benefits is probable.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Where there are number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Provisions are not recognized for future operating losses.

i. Employee benefits - defined benefit obligation (Provision for employment termination benefits)

Employment termination benefits, as required by the Turkish Labor Law and the laws applicable in the countries where the subsidiaries operate, represent the estimated present value of the total reserve of the future probable obligation of the Company arising in case of the retirement of the employees. According to Turkish Labor Law and other laws applicable in Turkey, the Company is obliged to pay employment termination benefits to all personnel in cases of termination of employment without due cause, call for military service, be retired or death upon the completion of a minimum one year service. All actuarial gains and losses are recognized in other comprehensive income.

ii. Provision for profit sharing and bonus plans

The Company recognizes a liability and an expense for bonus and profit-sharing for the management and board of directors, based on a formula that takes into consideration the profit attributable to the shareholders after certain adjustments. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

2.7.11 Accounting policies, errors and change in accounting estimates

Material changes in accounting policies and accounting errors are applied on a retrospective basis as if a prior period error had never occurred or the policy had always been applied. The effect of changes in accounting estimate shall be recognised prospectively by including it in the statement of comprehensive income within the period of the change, if the change affects that period only; or period of the change and future periods, if the change affects both.

2.7.12 Related parties

For the purpose of these financial statements, shareholders having control, joint control or significant influence over the Company, Yaşar Group Companies, key management personnel and board members, and their close family members, in each case together with and companies controlled, jointly controlled or significantly influenced by them are considered and referred to as related parties (Note 7).

2.7.13 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that takes strategic decisions.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

The chief operating decision makers regularly monitor and review the operational results based on the main products' performances in domestic and foreign markets. However, as the nature of the products, production processes, type of customers, distribution methods and regulatory environment for the operations of the Company are identical, and the operations performed in foreign markets is not material, segment reporting is not applicable

2.7.14 Leases

(1) *The Company as the lessee*

Finance Leases

Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased property net off any tax incentives received, if any, or the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the statement of comprehensive income over the lease period. The property, plant and equipment acquired under finance leases are depreciated over the lower of useful life or the lease period of the asset (Note 15).

Operating Leases

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of comprehensive income on a straight-line basis over the period of the lease.

(2) *The Company as the lessor*

Operating Leases

Assets leased out under operating leases are included in property, plant and equipment in the balance sheet. Rental income is recognised on a straight-line basis over the lease term in the statement of comprehensive income.

2.7.15 Taxation on income

The tax expense for the period comprises current and deferred income tax. The current income tax liability includes the taxes payable calculated on the taxable portion of the period income with tax rates enacted on the balance sheet date. The adjustments related to prior period tax liabilities are recognised in other operating expenses.

Deferred income tax income or expense is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised directly in equity. In case, when the tax is related to items recognized directly in equity and other comprehensive income, the tax is also recognized in equity and other comprehensive income.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

Deferred income tax assets or liabilities are reflected to the financial statements to the extent that they will provide an increase or decrease in the taxes payable for the future periods where the temporary differences will be reversed, using tax rates and laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled as of the balance sheet date.

Deferred income tax liabilities are recognized for all taxable temporary differences, where deferred income tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilised. To the extent that deferred income tax assets will not be utilised, the related amounts have been deducted accordingly (Note 41).

2.7.16 Statement of cash flow

In the statement of cash flows, cash flows are classified into three categories as operating, investment and financing activities. Cash flows from operating activities are those resulting from the Company's production and sales activities. Cash flows from investing activities indicate cash inflows and outflows resulting from property, plant and equipments and financial investments. Cash flows from financing activities indicate the resources used in financing activities and the repayment of these resources. For the purposes of the statement of cash flows, cash and cash equivalents comprise of cash in hand accounts, bank deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash with maturities equal or less than three months.

2.7.17 Share capital and dividends

Ordinary shares are classified as equity. Dividends payable on shares are recognised as an appropriation of the profit in the period in which they are declared. Dividend income is recognized when the Company's right to receive the payment is established.

2.7.18 Critical accounting estimates and judgements

Preparation of financial statements requires the use of estimates and assumptions that may affect the amount of assets and liabilities recognised as of the balance sheet date, disclosures of contingent assets and liabilities and the amount of revenue and expenses reported. Although these estimates and assumptions rely on the Company management's best knowledge about current events and transactions, actual outcomes may differ from those estimates and assumptions. Significant estimates of the Company management are as follows:

a) Income taxes

There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business and significant judgment is required in determining the provision for income taxes. The Company recognises tax liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made. (Note 41)

b) Fair value determination of available-for-sale investments

The generally accepted valuation techniques used in fair value determination of available-for-sale investments for which there is no quoted market price exists, consist of several assumptions, which are based on the management's best estimates and fair value available-for-sale investments could be different when the purchase/ sales of the transactions incurred (Note 48).

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (Continued)

c) *Revaluation of land, buildings and land improvements, machinery and equipments*

Revaluations are performed with the sufficient regularity to ensure that the carrying amounts of the revalued property, plant and equipment and investment properties do not differ materially from that which would be determined using fair value at the end of the reporting periods. The frequency of the revaluation depends upon the changes in the fair values of the items of property, plant and equipment and investment properties. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required and revaluation is performed for entire class of revalued item simultaneously. Besides, for items of property, plant and equipment and investment properties with only insignificant changes in fair value frequent revaluations and fair value measurements are considered unnecessary.

As there were no recent similar buying/selling transactions nearby, revaluations of land were based on the method of reference comparison whereas revaluations of buildings and land improvements and machinery and equipment were based on the method of cost approach and based on the following valuation techniques and assumptions;

- Revaluations of land were based on the method of reference comparison whereas revaluations of buildings and land improvements and machinery and equipment were based on the method of cost approach, considering existing utilization of the aforementioned property, plant and equipments are consistent to the highest and best use approach.
- In the market reference comparison method, current market information was utilized, taking into consideration the comparable property in the market in recent past in the region, price adjustment was made within the framework of criteria that could affect market conditions, and accordingly an average m² sale value was determined for lands subject to the valuation. The similar pieces of land found were compared in terms of location, accessibility, size, settlement status, changes in settlement status, physical conditions, real estate marketing firms were consulted for up-to-date valuation of the estate market, also, current information and experience of the professional valuation company was utilized.
- In the cost approach method, fair value of the buildings and land improvements was calculated by considering recent re-construction costs and related depreciation. In the cost approach method, above explained market reference comparison method was used in calculation of the land value, one of the components.
- Since a fully integrated industrial plant was in discussion, the revaluation work was performed based on all the active and functioning assets in the integrated plant rather than taking as basis the data for the second-hand market within the scope of the valuation of the machinery and equipment. Such machinery and equipment were reviewed and assessed by their line.

The carrying values of land, land improvements, buildings, machinery and equipment do not necessarily reflect the amounts that would result from the outcome of a sales transaction between independent parties.

As of initial recognition and as of balance sheet date, the Company performs impairment assessment for buildings, land improvements and machinery and equipment of which valuations are based on cost approach, accordance with the "TAS 36 Impairment of Assets", and no impairment indicator is identified.

NOTE 7 - TRANSACTIONS AND BALANCES WITH RELATED PARTIES (Continued)

n) Bails given to related parties:

As of 31 December 2015 Pınar Süt, Pınar Et, YBP, Çamlı Yem and DYO Boya have provided joint and several guarantee to Yaşar Holding; for its Eurobond issued in international markets at 6 November 2014, amounting to USD250,000,000 equivalent of TL726.900.000 (2014: USD250,000,000 equivalent of TL579.725.000) due 6 May 2020. An Indemnity Agreement was signed between Yaşar Holding and the abovementioned guarantors on 3 November 2014, which states that in an occurrence of an event where a guarantor makes a payment related with the guarantee provided; Yaşar Holding will indemnify the paying guarantor. If Yaşar Holding fails to indemnify the paying guarantor, each of the guarantors will indemnify the paying guarantor by 1/5 of the payment amount.

The Company jointly guarantees the repayment of loans obtained by Yaşar Group companies from international markets and financial institutions amounting to EUR22.222.222, equivalent of TL70.613.333 (2014:EUR33.333.333,equivalent of TL94.023.332) (Note 26).

NOTE 8 - TRADE RECEIVABLES AND PAYABLES

	31 December 2015	31 December 2014
a) Short-term trade receivables:		
Customer current accounts	14.818.914	13.335.309
Cheques and notes receivable	6.433.876	771.419
	<u>21.252.790</u>	<u>14.106.728</u>
Less: Provision for impairment of receivables	(339.779)	(303.499)
Unearned finance income	(201.698)	(78.129)
	<u>20.711.313</u>	<u>13.725.100</u>

The effective weighted average interest rate on TL denominated trade receivable is 11,37% as of 31 December 2015 (2014: 9,92%) maturing within two months (2014: within two months).

The agings of trade receivables as of 31 December 2015 and 2014, over which no provision for impairment is provided, are as follows:

Overdue	1.465.075	1.118.287
0-30 days	9.691.309	8.503.620
31-60 days	7.778.978	3.363.729
61-90 days	294.741	739.464
91days and over	1.481.210	-
	<u>20.711.313</u>	<u>13.725.100</u>

As of 31 December 2014, trade receivables of TL1.465.075 (2014: TL1.118.287), over which no provision for impairment is provided, were past due. The Company management does not expect any collection risk regarding those receivables based on its past experience (Note 49.a).

			4.514.749			3.235.354

The Company does not have any guarantees received from related parties as of 31 December 2015 (2014: None).

e) Contingent liabilities:

Based on negotiations with Kemalpaşa Municipality Housing Department regarding the 1/1000 scaled building development scheme dated 27 February 2008, it has been identified that the plots in Kemalpaşa - İzmir, the site of the Company's land, buildings and land improvements, are located within an industrial zone. As of 31 December 2015, the fair value of the aforementioned properties located on the plots amounts to TL96.940.887. This plan was announced by the Industry and Trade Office of İzmir within July 2008. If the building development scheme comes into force, Kemalpaşa Municipality may reduce the legal area on the title deeds of those properties. In consideration of time consuming process, it is not possible to make a reliable estimation therefore the amount of any possible reduction over those plots cannot be reliably estimated. The Company management assumes that the impact of such reduction will be immaterial to the financial statements.

NOTE 27 - COMMITMENTS

The Company does not have any purchase commitments as of 31 December 2015 (2014: None).

NOTE 28 - EMPLOYMENT TERMINATION BENEFITS

	31 December 2015	31 December 2014
a) Payable due to employee benefits		
Social security premiums payable	946.379	846.821
Payables to personnel	56.367	1.533
	1.002.746	848.354

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 28 - EMPLOYMENT TERMINATION BENEFITS (Continued)

b) Short-term provisions due to employee benefits

	31 December 2015	31 December 2014
Bonus provisions to top management	628.011	628.011
Provision for seniority incentive bonus	294.566	165.504
	922.577	793.515

The movement of bonus provision to top management is as follows:

	2015	2014
1 January	628.011	919.628
Bonus payment	-	(291.617)
31 December	628.011	628.011

c) Long-term provisions due to employee benefits

Provision for employment termination benefits	15.226.680	13.107.839
Provision for seniority incentive bonus	494.230	508.072
	15.720.910	13.615.911

Under the Turkish Labour Law, the Company is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, or who is called up for military service, dies or retires after completing 25 years of service (20 years for women) and reaches the retirement age (58 for women and 60 for men).

The amount payable consists of one month's salary limited to a maximum of TL3.828,37 for each year of service as of 31 December 2015 (2014: TL3.438,22).

The liability is not funded, as there is no funding requirement. The provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees with certain actuarial assumptions.

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. The maximum amount of TL4.092,53 which is effective from 1 January 2016 (1 January 2015: TL3.541,37) has been taken into consideration in calculating the provision for employment termination benefits of the Company which is calculated once in every six months.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 28 - EMPLOYMENT TERMINATION BENEFITS (Continued)

The following actuarial assumptions were used in the calculation of the total liability:

	31 December 2015	31 December 2014
Discount rate (%)	3,95	3,95
Probability of retirement (%)	98,21	98,20

Movements of the provision for employment termination benefits during the years are as follows:

	2015	2014
1 January	13.107.839	11.311.962
Interest costs	1.393.241	1.199.367
Actuarial losses	1.313.456	1.883.986
Paid during the year	(1.839.130)	(2.400.184)
Annual charge	1.251.274	1.112.708
31 December	15.226.680	13.107.839

The total of interest costs, actuarial losses and annual charge for the year is TL3.957.971 (2014: TL4.196.061). TL2.644.515 portion (2014: TL2.312.075) of this amount was included in general administrative expenses and TL1.313.456 (2014: TL1.883.986) portion was included in other comprehensive income.

NOTE 29 - EXPENSES BY NATURE

	1 January - 31 December 2015	1 January - 31 December 2014
Direct material costs	423.916.370	406.300.164
Staff costs	43.783.656	41.091.735

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 30 - OTHER ASSETS AND LIABILITIES

	31 December 2015	31 December 2014
a) Other current assets:		
Income accrual	148.341	362.492
	148.341	362.492
b) Other current liabilities:		
Expense accrual	14.405	20.027
	14.405	20.027

NOTE 31 - SHARE CAPITAL, RESERVES AND OTHER EQUITY ITEMS

The Company adopted the registered share capital system available to companies registered to the CMB and set a limit on its registered share capital representing registered type shares with a nominal value of TL1. The Company's historical authorised registered capital at 31 December 2015 and 2014 is as follows:

	31 December 2015	31 December 2014
Registered share capital (historical values)	100.000.000	100.000.000
Authorised registered share capital with a nominal value	43.335.000	43.335.000

The compositions of the Company's share capital at 31 December 2015 and 2014 were as follows:

Shareholders	31 December 2015		31 December 2014	
	Share amount TL	Share (%)	Share amount TL	Share (%)
Yaşar Holding (A,B)	23.476.895	54	23.476.895	54
Pınar Süt (A,B)	5.451.752	13	5.451.752	13
Public quotation (A,B)	14.406.353	33	14.406.353	33
Share capital	43.335.000	100	43.335.000	100
Adjustment to share capital	37.059.553		37.059.553	
Total paid-in capital	80.394.553		80.394.553	

Adjustment to share capital amounting to TL37.059.553 (2014: TL37.059.553) represents the remaining amount after net-off the accumulated losses of 2003 from the difference between restated (inflation adjusted) share capital and historical cost of share capital (before inflation adjustment).

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 31 - SHARE CAPITAL, RESERVES AND OTHER EQUITY ITEMS (Continued)

The companies registered in Turkey can exceed authorized registered share capital by way of increasing bonus shares from capital reserves, except for by cash, at once. However, capital increase by cash shall not exceed authorized registered share capital.

There are 4.333.500.000 (2014: 4.333.500.000) units of shares with a face value of Kr1 each (2014: Kr1 each).

The Company's capital is composed of 1.500.000 units of A type bearer share and 4.332.000.000 units of B type bearer share, and the B type bearer shares are traded on ISE. Based on the Company's Articles of Association, the Board of Directors comprises five to nine members elected by the General Assembly from among the Company's shareholders or from outside the Company personnel in accordance with the provisions of the TCC. In the event the Board of Directors comprises five members, three are elected from among candidates nominated by shareholders bearing A type shares, two from those nominated by shareholders bearing B type shares. In the event the Board of Directors comprises seven members, four are elected from among candidates nominated by shareholders bearing A type shares, three from those nominated by shareholders bearing B type shares. In the event the Board of Directors comprises nine members, five are elected from among the candidates nominated by shareholders bearing A type shares, four from those nominated by shareholders bearing B type shares. In addition, the chairman of the board and the executive director are selected from among shareholders of A type shares.

Board of Directors has authority to classify new shares as registered or bearer separately in accordance with the CMB regulations. Companies can increase their share capital by way of bonus issue to existing shareholders in proportion of their shareholding rates.

Retained earnings and certain reserves according to the statutory financial statements, other than legal reserves, are available for distribution subject to the legal reserve requirement referred to below:

Under the Turkish Commercial Code, Turkish companies are required to set aside first and second level legal reserves out of their profits. Companies are required to set aside 5% of their net profits each year as a first level legal reserve. The ceiling on the first level legal reserves is 20% of the paid-up capital. The reserve requirement ends when the 20% of paid-up capital level has been reached. The second level reserves correspond to 10% of profits actually distributed after the deduction of the first level legal reserves plus minimum obligatory dividend pay-out (5% of the paid-up capital). According to Turkish Commercial, legal reserves unless they exceed 50% of the paid capital can be used to offset losses: Otherwise it is not possible to use other than that.

The aforementioned amounts accounted for under "Restricted Reserves" in accordance with Turkish Financial Reporting Standards ("TFRS"). At 31 December 2015, the restricted reserves of the Company amount to TL30.555.315 (2014: TL28.088.560). The unrestricted reserves of the Company, amounting to TL63.423.009 (2014: TL48.462.558), is classified in the "Retained Earnings".

In accordance with the announcements of CMB "Share Capital", "Restricted Reserves" and "Share Premium" shall be carried at their statutory amounts. The valuation differences (e.g. the differences raises from inflation adjustments) shall be classified as follows:

- the difference arising from the "Paid-in-Capital" and not been transferred to capital yet, shall be classified under the "Inflation Adjustment to Share Capital";
- the difference due to the inflation adjustment of "Restricted Reserves" and "Share Premium" and the amount has not been utilised in dividend distribution or capital increase yet, shall be classified under "Retained Earnings".

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 31 - SHARE CAPITAL, RESERVES AND OTHER EQUITY ITEMS (Continued)

Capital adjustments differences have no other use other than being transferred to share capital.

Companies distribute dividends in accordance with their dividend payment policies numbered II-19.1 settled by CMB on 1 February 2014.

Based on CMB Communiqué, there is no mandatory minimum profit distribution requirement for the quoted entities at the stock exchange for profits arising from operations. Regarding the dividend distribution for the current and following years, the entities are to distribute their profits for the current and following years under the scope of their articles of association and their previously publicly declared profit distribution policies.

In line with Article 26 of the Company's Articles of Association, previous year losses, if any, are deducted from the net period profit and then overall legal reserve and the first dividend are allocated according to the Capital Markets Board legislation. Of the remaining portion, an amount up to 5% can be set aside as allocation provision for the members of board of directors and for other items which the board of directors will determine and deem necessary in line with the decision made by the General Assembly.

Unless allocation of legal reserves per TCC and dividends defined in the dividend policy of companies, it cannot be decided to allocate other reserves, to transfer the profit to the retained earnings, and to distribute dividend to members of board of directors, employees, redeemed shareholders and parties other than shareholders. Furthermore, payment of dividend in cash is another requirement for distributing dividend to members of board of directors, employees, redeemed shareholders and parties other than shareholders.

Dividend is distributed for shares available as of accounting period of all of them equally without regarding to the dates of issue and acquisition.

Based on the decision of General Assembly meeting on 25 March 2015, the Company has decided to distribute net income for the year 2014 amounting TL26.384.300 as dividend and payments to boards. As of 31 December 2015 all the dividends were paid. In context of this dividend distribution, Company separate TL2.466.755 from 2014 profit as "Restricted Reserve" and decided to divide on 29 May 2015. Since the General Assembly meeting of the year 2015 has not been performed yet, dividend distribution decision has not been taken.

PINAR ENTEGRE ET VE UN SANAYİİ A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 41 - INCOME TAXES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Continued)

Corporation tax is payable at a rate of 20% for 2015. (2014: 20%) on the total income of the Company after adjusting for certain disallowable expenses, exempt income (exemption for participation in subsidiaries, exemption for investment incentive allowance etc.) and allowances (e.g. research and development allowance). No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey, or resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15% (2014: 15%). An increase in capital via issuing bonus shares is not considered as a profit distribution and thus does not incur withholding tax.

Corporations are required to pay advance corporation tax quarterly at the rate of 20% (2014: 20%) on their corporate income. Advance tax is declared by 14th and payable by the 17th (2014: 17th) of the second month following each calendar quarter end. Advance tax paid by corporations is credited against the annual corporation tax liability. If, despite offsetting, there remains an amount for advance tax amount paid, it may be refunded or offset against other liabilities to the government. In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within 25th of fourth month following the close of the financial year to which they relate.

Tax returns are open for 5 years from the beginning of the year that follows the date of filing, during when the tax authorities have the right to examine tax returns and the related accounting records on which they are based, and may issue re-assessments based on their findings. Under the Turkish taxation system, tax losses can be carried forward to offset future taxable income for 5 years.

In Corporate Tax Law, there are many exemptions for corporations, those related to the Company are explained below:

Dividend income from shares in the capital of another corporation subject to resident taxpaying (except dividends from investment funds participation certificates and investment trusts shares) is exempt from corporate tax.

According to Turkish Corporate Income Tax Law numbered 5520, effective from 21 June 2006, a 75% portion of the gains derived from the sales of preferential rights, usufruct shares and founding shares from investment equity and real property, which has remained in assets for more than two full years are exempt from corporate tax. To be entitled to the exemption, the relevant gain is required to be held in a fund account in the liabilities and it must not be withdrawn from the entity for a period of five years. The sales considerations has to be collected up until the end of the second calendar year following the year the sale was realised.

75% of the profits from sale of preferential right certificates and share premiums generated from sale of shares at a price exceeding face values of those shares during incorporations or capital increases of joint stock companies are exempt from corporate tax.

Accordingly, the aforementioned gains/(losses) which have been included in trade profit/ (loss) have been taken into consideration in calculation of Company's corporate tax.

Apart from the exemptions mentioned in the preceding paragraphs, the deductions granted in 8th article of Corporate Tax Law, and 40th article of the Income Tax Law, together with other deductions mentioned in 10th article of Corporate Tax Law, have been taken into consideration in calculation of the Company's corporate tax.

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 41 - INCOME TAXES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Continued)

Transfer Pricing

Corporations should set the prices in accordance with the arm's length principle while entering into transactions regarding the sale or purchase of goods and services with related parties. Under the arm's length principle within the new legislation related parties must set the transfer prices for purchase and sale of goods and services as if they would have been agreed between third parties. Depending on the circumstances, a choice of accepted methods in aforementioned law of arm's length transaction has to be made by corporations for transactions with related parties. Corporations should keep the documentary evidence within the company representing how arm's length price has been determined and the methodology that has been chosen by use of any fiscal records and calculations in case of any request by tax authorities. Besides, corporations must report transactions with related parties in a fiscal period.

If a taxpayer enters into transactions regarding the sale or purchase of goods and services with related parties, where the prices are not set in accordance with the arm's length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. The profit distributed in a disguised manner through transfer pricing completely or partially, will be assessed as distributed profit share is considered as net profit share and complemented to gross amount, deemed profit will be subject to corporate tax. Previous taxation processes will be revised accordingly by taxpayer who distributes disguised profit. In order to make adjustments in this respect, the taxes assessed in the name of the company distributing dividends in a disguised manner must be finalized and paid.

The amount of disguised earnings will be will be finalized as the payment amount.

Taxation on income in the statement of comprehensive income for the years ended 31 December 2015 and 2014 are as follows:

	1 January - 31 December 2015	1 January - 31 December 2014

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 49 - NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, cash flow, fair value interest rate risk), capital risk, credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company.

Risk management is carried out by the senior management and finance department of the Company under policies approved by Board of Directors. The Board of Directors provides principles for overall risk management as well as policies covering specific areas, such as foreign exchange risk, interest rate risk and capital risk and closely monitors financial and operational risks (especially arising from meat price fluctuations).

The financial risk management objectives of the Company are defined as follows:

- Safeguarding the Company's core earnings stream from its major assets through the effective control and management of foreign exchange risk and interest rate risk,
- Effective and efficient usage of credit facilities in both the short and long term through the adoption of reliable liquidity management planning and procedures,
- Effective monitoring and minimizing risks sourced from counterparts.

a) Credit risk:

Ownership of financial assets involves the risk that counterparties may be unable to meet the terms of their agreements and in turn credit risks arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to customers, including outstanding receivables and committed transactions. Majority of the Company's sales in domestic market are made to its investments in associate, YBP, and its exports are made to YDT, which are both Yaşar Group Companies. In line with past experiences and current condition trade receivables are monitored by the Company Management and necessary provisions for impairment is recognised. The Company management believes that credit risk arises from receivables is well managed. The Company management believes that there is no risk for non-trade receivables from related parties since they are mainly comprised of receivables from shareholders. The credit risk analysis of the Company as of 31 December 2015 and 2014 are as follows:

Over 6 months overdue	-	-	-
The part of credit risk covered with guarantees	-	-	-
	803.524	1.118.287	1.921.811

b) Liquidity risk:

Prudent liquidity risk management comprises maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

The ability to fund the existing and prospective debt requirements is managed by maintaining the availability of fund providers lines from high quality lenders. In order to maintain liquidity, the Company management closely monitors the timely collection of trade receivables, take actions to minimise the effect of delay in collections and arranges cash and non-cash credit lines from financial institutions in case of requirement.

c) Market risk:

i) Foreign exchange risk

The Company is exposed to foreign exchange risks through the impact of rate changes on translation into TL of foreign currency denominated assets and liabilities. The Company minimizes the risk through balancing foreign currency denominated assets and liabilities. These risks are monitored by analyses of the foreign currency position. Current risks are discussed by the Audit Committee and the Board of Directors regularly and the foreign exchange rates relevant to the foreign currency position of the Company are mentioned.

NOTE 49 - NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS (Continued)

ii) Interest rate risk

The company does not have financial instrument with variable interest rate as of 31 December 2015 and 2014.

iii) Price risk

The profitability of the Company's operations and the cash flows generated by those operations are affected by changes in the raw material prices and market competition that are closely monitored by the Company management and precautions for cost efficiency are taken. The Company does not anticipate that prices of unprocessed meat and other raw materials will change significantly in the foreseeable future and, therefore, has not entered into derivative or other contracts to manage the risk of a decline or increase in the prices of unprocessed meat and other stocks and raw materials. The current risks are properly monitored by Board of Directors and Audit Committee regularly in considering the need for active financial risk management.

d) Capital Risk Management:

The Company's objectives when managing capital are to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total equity. Net debt is calculated as the total liability (including borrowings, trade payables, due to related parties and other payables, as shown in the balance sheet) less cash and cash equivalents.

	31 December 2015	31 December 2014
Financial liabilities	6.185.412	858.677
Less: Cash and cash equivalents	(4.808.870)	(1.741.969)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD BETWEEN 1 JANUARY - 31 DECEMBER 2015

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

NOTE 50 - FINANCIAL INSTRUMENTS (FAIR VALUE AND FINANCIAL RISK MANAGEMENT DISCLOSURES)

Classification of financial assets

The Company's financial assets and liabilities classified as available-for-sale investments and loans and receivables. Cash and cash equivalents (Note 6), trade receivables (Notes 8) and other receivables (Notes 10) of the Company are classified as loans and receivables and measured at amortised cost using effective interest method. Available-for-sale investments are disclosed in Note 48. The Company's financial liabilities are classified as financial liabilities (Note 25), other financial liabilities and trade payables (Note 8).

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by equated market price, if one exists.

The estimated fair values of financial instruments have been determined by the Company using available market information and appropriate valuation methodologies. However, judgement is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realise in a current market exchange.

The following methods and assumptions were used to estimate the fair value of the financial instruments:

Financial assets

The fair value of the foreign currency denominated amounts, which are translated by using the exchange rates prevailing at period-end, is considered to approximate their fair value. The fair values of certain financial assets carried at costs, including cash and due from banks, receivables and other financial assets are considered to approximate their respective carrying values due to their short-term nature. Available-for-sale investments are carried at their fair values. The fair values of available-for-sale investments which do not have quoted market prices in active markets, are determined by using general accepted valuation techniques or stated at cost, less a provision for impairment, if any, by assuming the carrying values do not differ materially from their fair values.

Financial liabilities

Trade payables, payables to related parties and other monetary liabilities are estimated to be presented with their discounted carrying amounts and they are considered to approximate to their fair values and the fair values of balances denominated in foreign currencies, which are translated at year-end exchange rates, are considered to approximate carrying values.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:
